DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 19 & 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 19 & 20 recite that the acetal ring is saturated, however the compound of Formula I recited in each claim reflect the presence of optional double bonds, thereby making the ring potentially unsaturated. If Applicant intends a saturated acetal ring, the indication of optional double bonds, namely the dashed lines, should be removed from the compound of Formula I. Further clarification is required.

Allowable Subject Matter

3. Claims 1-18 & 21-26 are allowed.
4. Claims 19 & 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest the compound of Formula I as claimed by Applicant.
